

The Oral and Maxillofacial Surgery Clinic has established the following standardized criteria for referrals. **WE DO NOT OFFER DENTAL SERVICES.** To avoid delay in appointment scheduling, please ensure that all supporting information for the pre-determined outcome and/or condition is included with the Outpatient Referral Form **prior** to requesting the referral. Please mark the appropriate box(s) as indicated.

- Dental Extractions/Decayed teeth**- We will again be accepting referrals for dental extractions from Physicians. We DO NOT provide general dental services such as cleanings, fillings, root canals, etc.
- Oral and facial abscess**-We will drain abscesses and perform extractions of the teeth causing the abscess. If abscesses causes fever, dysphagia, trismus, drooling and/or airway compromise send patient to emergency room.
- Masses and Lesions of the Oral Cavity** –We will see masses and lesions on the lips, tongue, cheeks, gums or palate for evaluation, biopsy and treatment.
- Masses and Lesions of the Face**-We will see masses and lesions on the scalp, forehead, cheeks, eyelids, ear, nose, or lips including basal and squamous cell carcinoma for evaluation, biopsy, or treatment.
- Facial Fractures/Deformities**-We will see any facial fracture/deformities or soft tissue defects on the face.
- Temporomandibular Joint (TMJ) Disorder**-We will see patients with failed conservative management of TMJ derangement and pain.
- Sleep Apnea (Adult Patients)**-We will see sleep apnea adult patients that are refractory to conservative surgical management. Often Maxillomandibular advancement will correct the sleep apnea. Please send results of a new sleep study after conservative management.
- Cleft and Craniofacial Surgery**-We will see patients with cleft lip or palate in need of repair.
- Authorization**-For consult, treatment and follow-up.
